{"product_id":"1063"} /******/ Inflow® inventory * A flexible and easy-to-use inventory management solution * Can be integrated with barcodes, RFID and barcode scanners * Integrates with your existing point-of-sale system * Easy to setup and customize * 100% Additive Manufacturing Inflow is an inventory management solution that helps you manage your product inventory in an efficient way. It includes built-in barcode, RFID and multi-dimensional barcode capabilities to help increase sales, decrease costs and reduce errors. inflow inventory license key crack serial 55 How does it work? InFlow starts off by providing you with an inventory database that holds all your products and allows you to easily organize and manage them. Once you have a database, you can start generating and printing barcodes for your products and then add them to your inventory. inflow inventory license key crack serial 55 Inflow also helps you maintain a product database with complete information about your products. And because the whole process is done in the cloud, you can easily access and update your product database from any computer or mobile device. You can export your product information to CSV or XML formats for your product inventory database, or send your inventory report as an email attachment. Features: - Online Inventory and Adjustment - Barcode - Inventory Adjustment - Linked Products - Customer Profile - Sales Reports - Export to CSV or XML - Simple Setup - Manage Product with Barcodes - Configure with Barcode Scanners - Configure with RFID or Multi-Dimensional Barcode - Import with Barcode - Import with RFID - Linked products - Configure Rules - Generate and print barcodes - Reset Purchase Orders with tracked items - Cash Sales/Income - Invoices - Monthly reports - Replace Purchase Orders - Linked Sales Orders - Linked Sales Tax - Inventory Reserve - Easy Setup for Retailers - Point of Sale - Configure Inventory Period - Import RMA Data - Fully Configurable You can also sync your products with the items from external 3D printers and open manufacturers' catalogs and find the products your clients or customers want. Windows 7, 8.1 & 10 The primary purpose of this site is to educate consumers and encourage responsible ownership of electrical equipment. This web site is intended to promote the benefits and safe use of electrical energy.Q: How to parse a nested JSON string? I'm using Google Maps API v3 in an Android application. The API documentation says that I need to use the Places service. Since I am not allowed to put some sensitive data (API key) into my app, I decided to use a JSON string, e.g. This works well, and I'm able to search for Skoda in my city,... But: How can I parse the following JSON string? { "destination_addresses" : ["Bergstraße, 80221", "Bergstraße, 80221"], "next_stops" : [{ "distance" : { "text" : "0,2 km", "value" : 205 }, "duration" : { "text" : "1 min", "value" : 62 }, "html_instructions" : "Bergstraße, Neukölln", "duration_in_traffic" : { "text" : "0.4 km", "value" : 80 }, "duration_in_traffic_eas": { "text" : "0. f678ea9f9e
