Q: ExtJS - load remote javascript files dynamically in Ext.Loader I'd like to use Ext.Loader in ExtJS 4 to load external JavaScript files dynamically. The files are not included in the application manifest file. I can't use Ext.onReady() because I would like to load the files after a form was loaded. Is it possible to do this? A: You can simply load a.js file into a Script field of the webapp manifest (in xml-format) in the GUI, and add it to the Ext.Loader's "text" param, and it should work. Léonard Alègre Léonard Alègre (1 January 1870 – 8 April 1953) was a French painter. He spent most of his life in Paris, where he worked at the Académie de la Grande Chaumière. Among his works, are two murals for the Sorbonne.
